ESG GOVERNANCE

Oversight of the majority of material ESG topics and related impacts on the economy, people, and the environment is allocated to specific Board Committees: the Risk, Audit, Nomination, and Remuneration Committees. While the Committees retain continued responsibility for discrete ESG-related matters, the full Board retains primary responsibility for the Group's overarching ESG strategy, which has been framed around material ESG topics.

The Board ensures the alignment of ESG strategy with the business strategy, receives updates on progress of the key pillars of the ESG strategy, and oversees the Group's overall communications strategy around ESG topics and impacts. The Full Board also retains primary responsibility for overseeing the management of climate risks and opportunities, and it oversees the management of other Environmental and Social risks and opportunities that may arise in the Bank's loan portfolio. Updates on material ESG topics are regularly reported to the full Board or respective Committees.

Management of ESG topics and implementation of ESG strategy are delegated to the Bank's Executive Management team. Discrete ESG matters are managed by individual members of Executive Management. A Management-level Environmental and Social Impact Committee (ESI Committee) has been established, comprising the Management Team and senior managers, including the Bank's CEO, CRO, COO, CFO, CLO, Head of HR, Chief Marketing Officer, Head of Investor Relations, and Head of Funding.

The Committee is responsible for managing the Bank's climate, environmental and social impacts, focusing on those arising from its lending activities. It holds overall responsibility for designing, implementing, and enhancing environmental, social and climate strategies and policies, and for setting and monitoring targets. The Committee intends to further embed Environmental and Social risk management in the Bank's daily operations.
